MiO
My intelligent Organization

REDUCED TO THE MAX

—— THE ABILITY TO ORGANIZE ——

The kitchen is the culinary centre, but it's not the only part of your home that has to meet escalating demands for design, ergonomics, storage space and functionality. Creating a system that is right for any size of room requires creative flexibility in planning and an innovative look – with functionality and style that is right for any area of your home, even wet rooms.

MiO does it all. It's a system of pull-outs for base units, wardrobes, cabinets and beyond developed by Kesseböhmer that successfully blends contemporary design with optimal functionality. Modularity lets you configure custom pull-out solutions to optimize your storage.

It lets you make optimal use of your storage space, with effortless pull-out action, fantastic design and the latest technology – Designed in Germany.

FEATURES & BENEFITS:

- High-end look with glass panorama sides as standard
- Modular organization systems for plateware, cookware and cutlery
- Organizable storage for kitchens, bathrooms and living areas
- Easy to clean and care for
- Choice of widths and heights for versatile solutions
- Modern runner technology with easy, effortless action
- balancePRO to compensate for cabinet tolerances

CLEAR DESIGN LANGUAGE

— EASY HANDLING —

ALL THE PULL-OUTS HAVE GLASS PANORAMA SIDES AS STANDARD FOR A LIGHT, TRANSPARENT LOOK, A CLEAR OVERVIEW AND MORE EASE OF USE.

The new product design blends elegance and efficiency – at prices well below the premium segment.

The exclusive look and the adaptable design of the inside and front pull-outs in a range of widths and heights gives users a wide choice of options for kitchens, bathrooms and living areas. Organizer systems that stand the test of time.

MiO stands for well-organized, contemporary living. For the kitchen and beyond. The pull-outs – in different materials in a choice of three attractive colours – are robust and user-friendly.

Blending the best aspects of effortless action and streamlined design, they achieve a fine harmony and a high-end look. Ultimate design in its most beautiful and intelligent harmony. You can feel it!

balancePRO

IN PERFECT BALANCE

+/- 2.5 mm

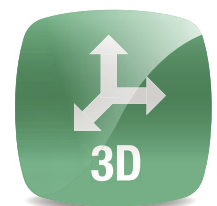

balancePRO stands for pull-outs that glide softly in and out and tolerate asymmetries of up to +/- 2.5 mm. balancePRO together with high load capacity and low pull-out forces, as well as accurate gap adjustment in three dimensions (3D adjustment) all add up to outstanding functionality. It's an outstanding mix of movement and stability. The great feeling of quality created in Germany.

CONCEALED FUNCTIONALITY

DRAWER SLIDE SYSTEM

LOADABILITY. SYNCHRONIZED MOVEMENTS. SELF CLOSING. SOFT CLOSING. 3D GAP ADJUSTMENT. THESE AND OTHER SPECIAL QUALITIES MAKE MiO A UNIQUE PULL-OUT SYSTEM FOR INDIVIDUALISTS.

If you expect striking design and you put a high priority on concealed runners, excellent runner action, stability, precision and outstanding ease of use, the MiO system is for you.

In addition MiO also offers improved 3D gap adjustment. This means the position of each drawer can be finely adjusted vertically, horizontally and tilt.

CUSTOMIZE YOUR STORAGE SPACE

— VERSATILE AND VARIABLE —

MiO

THE EASILY REMOVABLE SERVICE TRAYS ARE ATTRACTIVE AND PRACTICAL. They look so good that you'll be tempted to use them as part of a festive table setting, or simply as a dispenser in everyday kitchen work. The high quality matt plastic offers everything you could wish for in terms of contemporary look and feel. They're also easy to clean.

The ingenious uniGRID system lets you organize and store your plateware upright and exactly as you want it for easy access and a clear overview. Plates stored upright are easy to put away and to fetch out again. Upright storage also avoids any risk of plates bumping and chipping. The trays can also serve as drainage racks – water simply drips into the trays below the element and evaporates.

uniGRID dividers can be pulled out and shifted around. This flexibility ensures that your storage is perfectly organized to meet your requirements.

FEATURES & BENEFITS:

- Dishes and trays in a range of practical sizes
- Flexible location with uniGRID
- Easy to use
- Removable service trays
- Elegant, high value shapes and colours
- Optimal organization and overview
- Effective water management when used to drain dishes

CONFIGURATION OPTIONS

FLEXIBLE PLANNING CREATES MORE SPACE

— SIZE MATTERS! —

MiO

WITH A WIDE RANGE OF CONFIGURATION OPTIONS, MIO HELPS YOU MANAGE STORAGE SPACE SO THAT YOUR KITCHEN WORKS THE WAY YOU WANT IT TO. The system is bewitchingly simple to install and use. Two aims that are close to our hearts are to make good things better and complex process simpler. We do this by combining technical know-how with creativity – it's one of our strong points.

And that's why our MiO system is a chameleon. Its individual elements adapt to your needs and wishes – not the other way around.

The service tray with its contemporary look and easy-care, finger-friendly materials make table setting simple. The range of tray sizes means that you can fit out your pull-out drawers with exactly the organizer configuration that matches your requirements. We've planned the range of tray widths and breadths to make the most of the space in your pull-out. The high-quality plastic trays come in a choice of three harmonious colours – so that the inside of the kitchen units is as attractive as your whole kitchen. A touch of luxury for you and your family.

We create solutions for living and especially for kitchens big and small. Your needs are our inspiration.

BEHIND HINGED DOORS?

— SMART TECHNOLOGY! —

MiO

THE PERFECT SOLUTION BEHIND HINGED DOORS.

MiO offers substantial choice in how the pull-outs are fitted. If they're going to be used behind hinged doors, you'll need a special organizer element configuration with shortened sides for all the pull-outs. The appropriate adapter strip is naturally available on request.
